

Liquor Policy

Sun Peaks Golf Course

This policy is in place to ensure a comfortable and pleasant experience for all patrons.
It is mandatory that all patrons abide by this policy.

1. **Outside alcohol is not permitted on the golf course property.** Outside alcohol is defined as any liquor (including beer) not purchased from Sun Peaks Golf Course. All alcoholic beverages consumed on the golf course must be purchased from the following licensed outlets: 1st Hole Kiosk or Umbrella Café. A variety of alcoholic and non-alcoholic options are available.
2. **Personal coolers (or any type of food or beverage storage device) are not permitted on the golf course.** Golf carts are provided with a cooler and ice for your convenience. Sun Peaks staff are permitted*, under our liquor license, to search coolers and/or golf bags for illicit liquor.

**This right will be used as a last resort, and only after non-compliance has been confirmed through other means. The guest has the right to refuse this search, the result of which will be immediate removal from the golf course. Failure to comply with these regulations will result in player removal from the golf course and property.*

3. **No person shall consume alcoholic beverages to the point of impairment or intoxication.**

This policy is required to maintain our liquor license.

The terms of Sun Peaks' liquor license require our management and staff to be diligent in preventing the consumption of outside liquor. Failure to abide by the rules may result in substantial fines levied against the ownership, management, and staff members, as well as the suspension or removal of the liquor license.

The BC Liquor and Cannabis Regulation Branch (LCRB) provide strict rules for liquor sale and service on golf courses and monitor courses closely. Under these regulations, the golf course is required to limit the quantity of liquor it will sell to individuals, to help prevent over consumption on or adjacent to the golf course.

The intent of this policy is to control, not prohibit, consumption. The goal of these control measures is to reduce the risks of liquor related harm such as, over consumption, impaired driving, violence, and legal liability.

Thank you for your cooperation.
