

Amie Easton, a local from Heffley Valley, has been artsy since she can remember. From painting garbage cans in high school to running Sun Peak's first ever tattoo parlour; there's never a dull moment when it comes to her need for art.

Although Amie mainly designs tattoos now, her passion and relaxation comes from her time painting on her little farm. You can visit www.juggerbean.com or email juggerbean@gmail.com for prints, orders and additional work of art.
