

Mei Lin Cheung

"Hi, I'm Mei Lin Cheung, an artist with a passion for capturing the beauty of nature through digital art. Growing up surrounded by the mountains gave me a sense of inspiration and calmness that I love to recreate in my work. Every time I create a new piece, I want to convey the same beauty and emotion I feel when I'm outside or with friends, and that is something that will always remain in my art. When I'm not creating, my favourite thing to do is anything outdoors: skiing, snowboarding, biking and hiking, to name a few. Being out there surrounded by nature gives me a feeling like no other - one of peace, freedom and connection.

Thank you for taking the time to get to know me. If you would like to find out more about my work, please check out my website, meilincheung.com or follow me on Instagram at @meilinc."
